

What is a diesel exhaust retrofit?

- Replaces the muffler
- Reduces particulate by at least 85%
- No change to fuel or engine
- Applicable to 1994-2006 engines
- Must be approved (Verified) by CARB

Cleaire Vista™ Active Diesel Exhaust Filter

Retrofits reduce particulate to new engine standards

Benefits of Retrofit

- Immediately improves Health/Air Quality
- Climate Change Impact (black carbon)
- Maximize the useful life of the truck
- Creates “*Green Collar*” jobs
